Providing Exceptional Service to Exceptional Families

EFMP, or Exceptional Family Member Program, is a program designed to ensure services are available for your family member, regardless of age, a medical, educational, developmental, intellectual, or mental health condition that requires on-going specialized services.

The goal of the EFMP Family Support Coordinator is to provide special needs families with accurate, up-to-date information and resources regarding the EFMP program, local resources and support, and disability-specific news.
